From: "Brian Carling" <bry@mnsinc.com>

Subject: Re: Need Drive potentiometer = 25 K at 4 watts

To anyone else looking for a drive pot, I think I found some for you:

FYI - I saw some 25K 5 watt wire wound pots for sale in DIGI-KEY's new catalog. They are made by CTS and cost \$3.50 each which is a phenomenally good price I think!

I just bought a used Western Electric pot for my Valiant.

73 to all - Bry

From: kd6poc@jps.net (Adam McLaughlin)

Subject: HV Windings

Dear fellow Glowbuggers,

Does anybody out there have a suggestion for estimating the current carrying

capacity of the HV winding of a power transformer?

Thanks and 73,

Adam
